Rover Diagram & Labels Template

Instructions:
Draw your rover design below. Use arrows to show how the information flows:

SENSOR → CPU → OUTPUT

Label these parts on your diagram:

- At least **TWO sensors** (e.g., camera, microphone, bumper)
- A **CPU/control center** that processes the input
- One or more **outputs** (e.g., wheel motor, lights, sound)
- Optional: Arrows or tags comparing rover parts to the **human body systems**
