Create Prezi or Google Slides on Genetic Disorders
Use Research Document Format for Slide Guidance

Prezi
1. From your Prezi Present dashboard, either choose the Convert PowerPoint option and convert your existing slides into a Prezi presentation or click Create from template.
2. Alternatively, you can also click the + icon under the search bar and select Presentation to create a new presentation from a template.
3. Choose a template to get started, then click Use this template.
4. You'll see your presentation load in a separate window.
5. To use a blank template, click Start from scratch from the dashboard.

Google Slides
Step 1: Create a presentation
To create a new presentation:

Open the Slides home screen at slides.google.com.
In the top left, under "Start a new presentation," click New Add. This will create and open your new presentation.
You can also create new presentations from the URL https://slides.google.com/create

Step 2: Edit and format a presentation
You can add, edit, or format text, images, or videos in a presentation.

Insert and arrange text, shapes, and lines
Add, delete & organize slides
Add animations to a slide
Step 3: Share & work with others
You can share files and folders with people and choose whether they can view, edit, or comment on them.
