Reflect on the questions below:

When you hear watershed, what immediately comes to mind?

What is one of your fondest memory involving water?

What is one of your fondest memories of the natural world?

Why do you think it's important to learn about the natural world and our waterways?

Why do you think it is important to protect our waterways?

What do you wish people knew about our community?

Is there anything else you would like to share in regards to your watershed story?
