1. Go to https://hydroclimate.ornl.gov/
2. Select **Download** Option:

3. Choose your HUC, county or state. Once you have decided on your area, click the watershed of interest on the map:

4. Click on the Climate Viewer Tab

5. Choose your Climate Model, Timescale, Hydroclimate Variable, and Climatology Period. For more information on each category, check out this resource:
   RESET Lesson: Platform Guide: Teacher
6. Once you have selected all of your filters, choose the Analytics box in the lower left corner of the map

7. You will then have the option to select Timeseries. If you want to save all of your graphs ahead of time, select the “Save as Image” icon.

8. Choose at least Precipitation, Runoff, and one Temperature data point to examine.
9. Students should complete the See, Think, Wonder Document for these graphs
