SYNTHESIS BOARD

OBSERVATION

This section likely contains notes or sticky notes detailing direct observations made during a study, experiment, or field research.

QUESTIONS

This area is for recording questions that arise from the observations, prompting further inquiry or investigation.

EVIDENCE

This section is dedicated to collecting and organizing supporting evidence related to the observations and questions, which could include data, findings, or relevant facts.

SCIENTIFIC IDEA

This part is where scientific concepts, hypotheses, or potential solutions are formulated and recorded, often based on the synthesis of observations, questions, and evidence.
