When you work on your research project, log what you do. Minimum expectation is 1 hour (per team member)/ week. Spread the time out. If you do small pieces, it will be less overwhelming. This log is not recreated each time you are asked to turn in, rather it is updated each time.

- If you are thinking about competing with your project, this log will help you at competition.

Research Project Time Log			Name:
Date	Time (How long did you work on the project? Do not include class time.)	Location (Where did you work on your project?)	Brief explanation of what you worked on during that time. What did you accomplish? What is your next step? What have you learned? Do you have all of the materials that you need? **Experiment - Are you happy with this research question? *(Are you excited? Do you feel it is a doable experiment?)*** ***Survey - How do you plan on sharing your survey?*** ***Who will you share the link with?*** ***How will you make sure that you get enough responses?*** **Data Mining- Are you happy with this research question? *(Are you excited? Are you finding information?)*** FOR PARTNERS ONLY: If you are working with a partner, please explain how you are both working on the project. Be specific. Who is writing which part? Who is running the experiment (or both?)? Who is revising? Who is responsible for turning in work?
